

Extra GP appointments are available at

Bartongate Surgery

Kingsholm Surgery

Partners in Health, Pavilion Family Doctors

**Mon to Fri – 18:30 to 20:00pm*

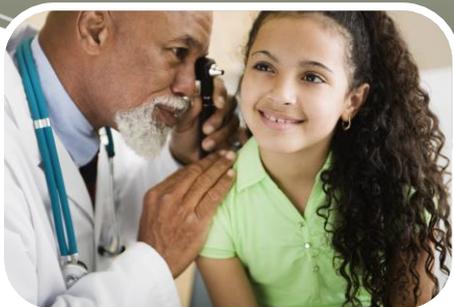

Extra GP & Nurse appointments are available at

Gloucester City Health Centre

**Saturday morning – 08:00 to 12:00 noon*

Sunday morning appointments will be at the Gloucester Health and Access Centre

Ring your GP surgery as normal. Your surgery will offer you an appointment based on what is available. If you choose an Improved Access appointment, the Reception staff will tell you where the clinic is being held and times available.

Who can be seen at these appointments?

These appointments are for anyone with a new problem, such as tonsillitis or an ear infection or a long-term condition that has become worse eg a chest condition – and needs treating urgently.

If you have a complex ongoing problem, it is probably best to follow up with your usual GP who knows you best.

Who to contact

Your first point of contact should always be your own GP surgery who will be able to assist you.

If you have any concerns about the service, please get in touch with your own GP surgery.

Medical record consent

The doctor or nurse that sees you will need your consent to access your medical records for the purpose of the consultation. The Receptionist booking the appointment will check that you give consent. Without your consent, they will not be able to see you in this clinic.

Feedback

If you have any comments to make on this project, please fill in the feedback forms available at Reception.

Tests or referrals to hospital

Following on from your consultation, if you need further investigation such as blood tests or xrays, or if you need a referral to hospital, your own GP will arrange this for you.

Medication

If you need medication, such as antibiotics, you will be given a paper prescription to take to the pharmacy.
